

**Chia-Lin (Charlene) Lee 李佳霖**

Associate professor: Graduate Institute of Linguistics, Department of Psychology,  
Graduate Institute of Brain and Mind Sciences, Neurobiology and Cognitive  
Neuroscience Center, National Taiwan University

**Email:** [Chialinlee@ntu.edu.tw](mailto:Chialinlee@ntu.edu.tw)

**Phone:** +886-2-33664104 ext.319

**Web page:** <http://blplab.linguistics.ntu.edu.tw/>

**Google scholar profile:**

<https://scholar.google.com/citations?user=58CFn84AAAAJ&hl=zh-TW>

**Address:** Graduate Institute of Linguistics,  
National Taiwan University  
Room 319, Le-Xue building  
No.1, Section 4,  
Roosevelt Road,  
Taipei, Taiwan

**Professional history**

- 08/2017- Associate professor at National Taiwan University  
*Main appointment:* Graduate Institute of Linguistics. *Joint appointment:* Department of Psychology; Graduate Institute of Brain and Mind sciences
- 08/2012- Assistant professor at National Taiwan University  
07/2017 *Main appointment:* Graduate Institute of Linguistics. *Joint appointment:* Department of Psychology; Graduate Institute of Brain and Mind sciences
- 09/2010- Postdoctoral Research Fellow, Moss Rehabilitation Research Institute,  
07/2012 Albert Einstein Healthcare Network, USA.  
Advisor: Laurel J. Buxbaum

**Educational background and Degrees Awarded**

- 2006-2010 Ph.D in Psychology, University of Illinois at Urbana-Champaign, USA  
Thesis "Electrophysiological investigations of lexical ambiguity resolution."  
Advised by Dr. Kara D. Federmeier.
- 2004-2006 M.A. in Psychology, University of Illinois at Urbana-Champaign, USA  
Thesis "To mind the mind: an event-related potential study of word class and semantic ambiguity." Advised by Dr. Kara D. Federmeier.
- 1999-2002 M.A. in Linguistics, National Taiwan Normal University, Taiwan  
Thesis "Processing of disyllabic compound words in Chinese aphasia."  
Advised by Drs. Daisy L. Hung and John K.P. Tse.
- 1994-1998 B.A. in English, National Taiwan Normal University, Taiwan

**Honors and Awards**

- 2021 NTU College of Liberal Arts Teaching Excellence Award
- 2015, 16 National Taiwan University Outstanding Academic Achievement Award
- 2014 National Taiwan University Teaching Excellence Award (up to top 9%)
- 2012-15 Taiwan National Science Council Recruiting Outstanding and Excellent

- Scholars Award, NSC 101-3114-C-002-101-ES
- 2009-10 William Orr Dingwall Foundation Neurolinguistics Dissertation Fellowship
- 2008 Society for Psychophysiological Research Tursky Award
- 2003 Fulbright Scholarship (declined due to deferred enrollment to the UIUC PhD program)

## Research support

- 08/2021-07/2022 ***The predictive processing in reading Taiwan Mandarin: an electrophysiological comparison between adults and healthy older adults.*** National Taiwan University Jade Picking Project. # 110L7228 & 111L7203 Role: Principal Investigator.
- 08/2019-07/2023 ***Age-related Effects on Predictive Language Processing: from the Perspective of Emotion Modulation, Statistical Learning and Language Network Architecture.*** Taiwan MOST grant. # MOST 108-2410-H-002 -056 -MY2 Role: Principal Investigator.
- 08/2018-07/2019 ***Age-related effects on error detection and creativity appreciation in language.*** Taiwan MOST grant. # MOST 107-2410-H-002-122 – Role: Principal Investigator.
- 01/2017-12/2018 ***Neural and cognitive reprogramming for syntax-related language comprehension in healthy aging.*** Taiwan MOST grant. # MOST 106-2420-H-002 -006 -MY2. Role: Principal Investigator.
- 01/2016-12/2017 ***Neural Mechanisms and Individual Differences Underlying Aging of Value-Based Decision Processing.*** Taiwan MOST grant. # MOST 105-2420-H-002-002-MY2. Role: Co-Investigator.
- 01/2016-12/2017 ***Brain Change and Lateralization as a Benchmark in Learning Chinese Characters and Words.*** Taiwan MOST grant. # MOST 105-2420-H-002-007-MY2. Role: Co-Investigator.
- 08/2015-07/2017 ***The influence of mental imagery ability on metaphor comprehension.*** Taiwan MOST grant. # MOST 104-2410-H-002 -155 -MY2. Role: Principal Investigator.
- 12/2014-11/2015 ***Brain Lateralization as a Benchmark in Learning Chinese.*** National Taiwan University Cutting-Edge Steering Research Project Fund. #NTU-CESRP-103R104904. Role: Co-Investigator.
- 11/2014-10/2015 ***Early Prediction and Prevention of Age-Related Cognitive Declines.*** National Taiwan University Cutting-Edge Steering Research Project Fund. #NTU- CESRP-103R104953. Role: Co-Investigator.
- 08/2014-07/2016 ***Altered Network Architecture of Language Processing in Aging: Contribution from the Right Hemisphere in Older Adults.*** Taiwan MOST grant. # MOST 103-2410-H-002 -215 -MY2. Role: Principal Investigator.
- 01/2014-12/2016 ***Differential Effects of Internally- vs. Externally-Regulated Expressive Suppression on Emotional Well-Being: Bridging Social and Neuroscience Levels of Analysis.*** Taiwan National Science Council Junior Researcher grant. #103-2420-H-002-007. Role: Co-Investigator.

- 08/2013- ***Effects of aging on the executive functions involved in language processing (II)***. Taiwan National Science Council (NSC) research grant. # 102-2410-H-002-055. Role: Principal Investigator.
- 07/2014
- 06/2013- ***Project of Granting Humanities and Social Science Research Book: Neurolinguistics***. Taiwan NSC grant. # 102-2420-H-002-022-2E. Role: Co-Investigator.
- 05/2014
- 01/2013- ***Effects of aging on the executive functions involved in language processing***. Taiwan National Science Council Junior Researcher grant. # 102-2410-H-002-005. Role: Principal Investigator.
- 10/2013
- 07/2011- ***Priming of Functional and Structural Action Information***. Albert Einstein Society Research Grant. Role: Principal Investigator.
- 06/2012

## Mentoring, Undergraduate Students

### LSA Summer Institute (2013): Zi-Zhun, Chen, Xiao-Xuan, Hong, Weo-Long Weng Neurobiology and Cognitive Science summer program

2017: Yun Zhuang, Wan-Chia Tsai

2019: Chun-Ting Chou, Yi-Chun Ke, Jia-Rong Dai

2020: Wei-Hong Lin, Li-Yun Wei, Zhi-Xuan Cao

2021: Tai-Chen Hsiao, Chun-Wen Liou, Chin-Tien Liao, Liao Wei-Jun

### MOST Undergraduate Research Project

2020: Wei-Hong Lin

### Undergraduate Research Project

2022: Ting-Fei Zhu

## Teaching

2021	Prediction, language, and the brain. Co-offered with Prof. Joshua Goh (LING 5001)
2019-now (every semester)	Seminar on Cognitive Linguistics and Psychology. Co-offered with Prof. Janice Fon and Chen-Hao Chiu (LING 7425)
2013-now (yearly)	Introduction to Event-Related Potential (ERP) data collection and analysis (LING7428)
2012-15, 2018,	Electrophysiology of language processing/Introduction to Electrophysiology of language processing (LING7427/7431)
2013, 2016, 2018	Seminar on Neurolinguistics (LING7430)
2014, 2017	Aging and language lateralization in the brain (LING7433)
2018, 2019	Research Methodology (LING7014)

2012	Research Methodology (IV) (LING7013)
2013, 2015	Research Methodology (II) (LING7011)
2015- 16	Introduction to Linguistics (LING5700)
2016	Statistics in Language Studies (LING7008)
2012- 14	Basic Issues in Cognitive Sciences (LING8000/GIBMS7004)
2012- 14; 2022	Introduction to Psycholinguistics (LING7401)
2014	Seminar on Language Lateralization (LING7434)
2014	Guest lecture for Advanced Cognitive Neuroscience (PSY7239). Topic: Lateralization
2013	Instructor for Linguistic Society of Taiwan Summer Institute
2012	Topics on Neurolinguistic Research (LING7429)
2008	Teaching assistant for UIUC Psychology: Evolution of Mind
2007	Teaching assistant and lab session instructor for UIUC Psychology: Laboratory in Cognitive Psychology
2004- 05	Teaching assistant for UIUC Psychology: Introduction to Cognitive Psychology.
2004	Guest Lecturer for UIUC Psychology: Introduction to Cognitive Psychology. Topic: “Knowledge and Categories”

### **Invited Addresses**

3/2022	Institute of Neuroscience, National Yang Ming Chiao Tung University
4/2022	The Chinese University of Hong Kong (Linguistic Seminars)
11/2020	政治大學語言學研究所. “Reading Emotions from Language”.
11/2020	第二十一屆全國語言學論文研討會暨台灣語言學學會第十一屆第二次會員大會. “Emotion anticipation induces emotion effects in neutral words during sentence reading: Evidence from event-related potentials.”
7/2019	National Taiwan Science Education Center, 2019 Science Carnival (國立臺灣科學教育館, 2019 科學玩意節). “認識腦內解碼大師”.
5/2019	Linguistic Society of Taiwan, the 12 <sup>th</sup> Linguistics Salon. “The ‘Right’ contribution to processing syntactic regularity”.
5/2019	NTU Graduate Program of Teaching Chinese as a Second Language. “Understanding and experiencing through the lens of a second language : evidence from electrophysiological brain responses “
1/2019	NTU-UT workshop at the University of Tokyo. “Finding syntactic regularity in the “right” brain: ERP studies on hemispheric coordination during syntactic processing”.

- 10/2018 Special Symposium for the Anniversary of the Neurobiology and Cognitive Science Center, NTU. “Getting grammar in the ‘right’ way: hemispheric coordination for syntactic processing in healthy young and older adults”.
- 10/2018 Young Investigator speech for ICPEAL 17- CLDC 9 Joint conference, Taipei, Taiwan.
- 10/2017 ILAS Workshop on Phonetics and Phonology, Academia Sinica, Taipei, Taiwan, “Hemispheric differences in picking up nonadjacent dependencies in an artificial language”.
- 09/2017 National Taiwan University Interdisciplinary Seminar at the College of Liberal Arts, “Altered Network Architecture of Language Processing in Aging”.
- 05/2017 Aim for the Top University Project office, National Taiwan Normal University, “Neural and cognitive reprogramming for syntax-related language comprehension in healthy aging”.
- 05/2017 Institute of Learning Sciences and Technologies, National Tsing Hua University, “A tale of two sides for syntactic processing”.
- 12/2016 PhD Program in Cognitive Sciences, National Chung Cheng University, “What does the right hemisphere know about grammar?”
- 12/2016 Department of Chinese as a Second Language, National Taiwan Normal University, “Scaffolding mechanisms for second language learning”.
- 11/2016 Annual meeting of the Linguistic Society of Taiwan, “Brain asymmetry and syntactic processing”.
- 11/2016 Graduate Institute of Linguistics, National Chung Cheng University, “Neural-cognitive reprogramming for language comprehension in healthy aging”.
- 08/2016 Aging, MCI and Language Symposium at the Department of Linguistics and Translation, City University of Hong Kong, “Neurophysiological Aging and the Comprehending Brain”.
- 06/2016 Taipei Public Library (main library and Huludu library), “Language and Aging: How Reading Activate Your Brains.” 台北市樂齡中心葫蘆堵分館以及總館, “語言與老化：讓閱讀幫你動動腦。”
- 04/2016 Indigenous Language Research and Development Center, Taipei, Taiwan, “Making sense of language as we age”.
- 03/2015 NTU-IBMP (Integrated Brain and Mind Project), “Mapping language network—implications from basic science to clinical applications”.
- 12/2013 The 1<sup>st</sup> International Workshop on Cognitive Aging, National Chung Cheng University, “Differential effects of aging on meaning processing”.
- 12/2013 Biophysics club at the National Chung Hsing University, “Making sense of language as we age”.

- 10/2013 Institute of Cognitive Neuroscience at the National Central University, “Making sense –effects of context on meaning processing”.
- 03/2013 The Integrated Brain and Mind Project Meeting at the National Taiwan University, “How the brain makes sense: neural correlates of language and conceptual processing”.
- 12/2012 6<sup>th</sup> Linguistic Salon held by the student committee of the Linguistics Society in Taiwan, “看腦波，讀語言—以語言歧義的理解為例” .
- 06/2012 Topics in Rehabilitation Science series at the Albert Einstein Medical Center, “Disrupted access to action knowledge in stroke patients with Apraxia”.
- 04/2012 Cognitive Area Talk Series at the Moss Rehabilitation Research Institute, “Is limb apraxia a disorder of refractory access to “action semantics”?”.
- 04/2012 The Center for Cognitive Neuroscience Colloquium Series at the University of Pennsylvania, “Putting Words Into Action: Understanding Object-Related Action Knowledge in Healthy and Damaged Brains”.
- 01/2012 The Phonetics, Phonology, and Speech Science Research Group at the Institute of Linguistics, Academia Sinica, Taiwan, “To mind the mind-- understanding lexical ambiguity with constraints of context, top-down resources, and aging”.
- 09/2011 The Laboratory for Cognition and Neural Stimulation in the Neurology Department at the University of Pennsylvania, “Eye gaze in action—effects of motor features and linguistic context on object identification”.
- 12/2010 Cognitive Area Talk Series at the Moss Rehabilitation Research Institute, “Semantic priming of action knowledge”.
- 06/2010 Cognition and Action Laboratory at the Moss Rehabilitation Research Institute, “From words to senses—ERP studies on the processing of concrete and abstract concepts”.
- 06/2010 Cognitive Neurology/Neuropsychology group in the Neurology Department at the Johns Hopkins University, “To mind the mind -- understanding lexical ambiguity with constraints of context, top-down resources, and aging”.
- 06/2010 Laboratory of Personality and Cognition at the National Institute on Aging, “Differential age effects on language processing mechanisms”.
- 06/2010 Marta Kutas Cognitive Electrophysiology Lab at the University of California, San Diego, “From words to senses—ERP studies on the processing of concrete and abstract concepts”.
- 04/2010 Knowledge for All lecture series at University of Illinois, “To mind the mind—understanding lexical ambiguity with constraints of context, top-down resources, and aging”.
- 03/2010 Cognitive Brownbag series at the Department of Psychology, University of

- Illinois, “Brain asymmetry and syntactic processing—accounting for familial handedness”.
- 03/2009 Cognitive Brain Mapping Group series at Northwestern University, “Top-down executive and automatic processes during lexical ambiguity resolution for noun/verb homographs”.
- 02/2009 Cognitive Brownbag series at the Department of Psychology, University of Illinois, “Aging modulates top-down but not automatic processes during lexical ambiguity resolution: an ERP study”.
