

From Academia to Industry:

Applying Cognitive Neuroscience in AI and Technology

Speaker: Dr. Wan-Ting Yeh

In this session, I'll share my career journey and how I transitioned from academia to industry. We'll explore current trends and demands for cognitive neuroscience graduates and discuss how neuroscience can significantly contribute to the AI and tech industry. I'll invite you to think about how you can transfer your academic expertise to industry roles and provide tips to prepare for your future career.
